

# Ear One Geophone Amplifier Kit

The Ear One geophone amplifier is compact, easy to use and rugged. It can connect to your vehicle's stereo system using a standard auxiliary audio cable, or can be used with headphones. Built in noise filtering ensures the operator can hear an approaching pig clearly

## The Ear One geophone amplifier kit includes:

- Ear One amplifier
- Headphones
- Geophone with a 50 ft. cable
- Auxiliary audio cable
- Low battery indicator
- Waterproof Nanuk hard case
- Operation Manual
- 1-year Manufacturer's Warranty

All Wavetrak Electronics Ltd. Equipment is Proudly backed by a one(1) year manufacturer's warranty
